Preface 3

- Prerequisites 3
- Hardware and software requirements 3
 - Hardware 3
 - Software 4
 - Reference manual 4
- Installing the files from the CD onto your hard drive 5
 - Windows 5
 - Macintosh and UNIX 6
- Completing the exercises in this book 6
- Conventions used in this book 6

Chapter 1: Understanding the structure view 9

- Verifying the FrameMaker interface 10
- Displaying the structure view 12
- Inserting the cursor in the structure view 14
- Moving elements in the structure view 17
- Collapsing and expanding elements 21

Chapter 2: Modifying existing content 23

- Changing the element catalog view 24
- Changing elements 27
- Merging elements 29
- Splitting elements 31
- Wrapping elements 33
- Modifying element attribute values 37
- Adding structure to unstructured content 40

Chapter 3: Inserting elements into existing structured content 43

- Inserting paragraph and character elements 44
- Inserting table elements 46
- Inserting graphic elements 51
 - Inserting anchored frames for drawn objects 51
 - Inserting anchored frames for imported graphics 54
- Inserting cross-reference elements 57
- Working with attributes 60
 - Ensuring that you're prompted for attribute values 60
 - Copying and pasting attribute values 61
- Copying and pasting elements 62
- Validating documents 64

Chapter 4: Creating document and book files 67

- Creating a new document 68
 - Creating a new document and importing formats and element definitions 68
 - Adding content to a blank document 69
- Building a structured book file 72
- Adding a table of contents to a structured book 76
- Adding an index to a structured book 79
 - Inserting structured index markers 79
 - Generating an index for a structured book 80
