Introduction	xxiii
What's New in FrameMaker 7	xxiv
Who Should Read This Book	xxiv
What's in This Book	xxv
Part I, Getting Started with FrameMaker	xxv
Part II, Creating and Manipulating Text	xxv
Part III, Controlling Page Layout	xxvi
Part IV, Building Books	xxvii
Part V, Creating Output	xxvii
Part VI, Advanced Techniques	xxviii
Part VII, Structured FrameMaker	xxviii
Part VIII, Appendixes	xxix
Conventions Used in This Book	xxx
Mistakes Were Made...	xxx
What About Versions 7.1 and 7.2?	xxx

PART I: GETTING STARTED WITH FRAMEMAKER

1 Why FrameMaker?	3
2 Establishing a Workflow in FrameMaker	11
Planning	14
Writing	15
Illustration	16

Editing/Reviewing	16
Production Editing	17
Indexing	17
Printing	17
Adding Structured Authoring to Your Workflow	19
Understanding Structured Documents	19
Choosing Between Structured and Unstructured Documents	20
How Structure Changes Your Workflow	22
Authoring in a Structured Environment	22
FrameMaker's Role in Single Sourcing	23
Evaluating Workflow Options	23
Transferring Information Between SGML/XML and FrameMaker	30
3 Creating Your First Document	33
Starting FrameMaker	34
Setting Up a New Document	36
Exploring the Standard (Unstructured) Templates	36
Using a File as a Template	37
Creating a Blank Document	40
Using an Existing File	41
Opening, Saving, Closing, and Printing Documents	41
Understanding the Document Window	42
Changing the Zoom Settings	43
Displaying Nonprinting Items in the Document Window	45
Changing View Options	48
Button List	49
Toolbars	50
Importing Text from Other Applications	57
Understanding File Configuration and Preferences	59
Handling Missing Font Problems	61
Organizing Directories and Files	62
File Naming Conventions	62
Saving File Information with XMP	64
Setting Automatic Backup and Save Features	65
Switching Between Structured and Unstructured Interfaces	65

PART II: CREATING AND MANIPULATING TEXT

4 Word-Processing Features	69
Standard Word-Processing Features	70
Searching and Replacing	70
Spell-Checking	75
Thesaurus	84
Configuring Default Text Options	85
Smart Spaces	85
Smart Quotes	86

Restricting Line Breaks	87
Formatting Superscripts, Subscripts, and Small Caps	88
Tracking Changes	89
Displaying the Word Count	89
Using Change Bars	90
Comparing Documents and Books	92
Working with Footnotes	95
Inserting Footnotes	96
Using the Same Number for Several Footnotes	97
Customizing Footnote Properties	99
Word-Processing Features in Structured Documents	102
Searching for Elements	103
Inserting Footnotes	104
5 Formatting Text with Paragraph Tags	107
Applying Paragraph Tags	108
Using the Paragraph Catalog to Apply a Tag	109
Using the Formatting Bar	109
Selecting a Menu Choice	110
Using the Right-Click Pop-Up Menu	110
Using Keyboard Shortcuts	110
Avoiding Formatting Overrides and Empty Paragraphs	111
Modifying Paragraph Tags	112
Paragraph Designer Settings	113
Creating Paragraph Tags	128
Renaming Paragraph Tags	129
Setting Properties Across the Entire Paragraph Catalog	130
Updating Selected Paragraphs Globally	131
Deleting Paragraph Tags	132
Autonumbering Details	134
Basic Autonumbering	134
Numbered Steps (1, 2, 3 and a, b, c)	136
Incorporating Chapter and Volume Numbers	138
Creating Numbered Headings	139
Marking the End of a Story	140
Paragraph Formatting in Structured FrameMaker	140
6 Formatting Text with Character Tags	143
Applying Character Tags	144
Using the Character Catalog to Apply a Tag	145
Selecting a Menu Choice	145
Using the Right-Click Pop-Up Menu	145
Using Keyboard Shortcuts	146
Modifying Character Tags	146
As Is Character Properties	147
Avoiding Character Tag Overrides	148

Creating Character Tags	149
Renaming Character Tags	151
Updating Character Properties Globally	152
Removing Character Tag Formatting	154
Deleting Character Tags	154
Additional Character Tags Tips	155
7 Understanding Table Design	157
Inserting Tables	158
Selecting Cells	160
Moving and Deleting Tables	161
Changing the Assigned Table Tag	162
Modifying a Table Tag	163
Changing Table Designer Settings	164
Globally Updating Table Tags	168
Creating a Table Tag	169
Customizing Tables Outside the Table Designer	170
Adding and Deleting Rows and Columns	170
Resizing Columns	172
Applying Paragraph Tags	174
Customizing Cell Ruling and Shading	175
Merging Table Cells	179
Rotating Table Cells	180
Sorting Table Data	181
Deleting Table Tags	183
Creating Tables from Text	184
Converting a Table to Text	186
Creating Structured Tables	188
8 Cross-References	191
Inserting Cross-References	193
Creating Paragraph-Based Cross-References	194
Creating Spot Cross-References	195
Creating Cross-References in Structured Documents	196
Setting Up Cross-Reference Formats	199
Formatting Cross-References	200
Cross-Reference Building Blocks	201
Cross-Reference Examples	206
Deleting Cross-Reference Formats	206
Updating Cross-References	207
Automatic Updating Problems	207
Updating Cross-References in a Book	208
Forcing a Cross-Reference Update	208
Preventing Automatic Updates	209
Renaming Files Without Breaking Cross-References	209

Correcting Broken (Unresolved) Cross-References	210
Changing the Referenced File	211
Re-Creating Broken Cross-References	212
Converting Cross-References to Text	212

9 Storing Content in Variables 215

Inserting Variables	217
Using the Menu	218
Using the Right-Click Pop-Up Menu	218
Using a Keyboard Shortcut	219
Modifying System Variable Definitions	219
Date and Time Variables	221
Numerical Variables	223
Filename Variables	224
Table Variables	224
Running Header/Footer Variables	225
Updating System Variables	231
Creating User Variables	232
Modifying User Variable Definitions	233
Converting User Variables to Text	234
Deleting User Variables	235
Using Variables in Structured Documents	236

PART III: CONTROLLING PAGE LAYOUT

10 Understanding Text Flows 243

Understanding Text Flows	244
Understanding Text Frame Properties	245
Adding Text Flows to Master Pages	248
Drawing Text Frames on the Body Page	249
Selecting Text Frames	250
Resizing Text Frames	251
Moving and Copying Text Frames	253
Deleting Text Frames	253
Customizing Text Flows	254
Connecting Text Flows	254
Creating Room for Side Heads	256
Adding Columns	258
Aligning Text Across Columns	259
Splitting Text Frames	264
Disconnecting Text Frames	265
Changing the Flow Tag	266
Switching from Single- to Double-Sided Pages	267
Structured Flows	270

11	Understanding Master Pages	271
	Applying a Master Page	272
	Creating Master Pages	274
	Creating Default Left and Right Master Pages	275
	Creating Custom Master Pages	275
	Renaming Master Pages	277
	Rearranging Master Pages	277
	Modifying Master Pages	278
	Adding Text Flows	279
	Setting Up Headers and Footers	279
	Setting Up a Watermark	280
	Creating a Landscape Master Page	283
	Creating Bleeding Tabs	285
	Removing Master Page Overrides	290
	Reapplying Master Pages Globally	291
	Eliminating Page Layout Overrides	294
	Deleting Master Pages	297
	Master Pages in Structured Documents	297
12	Importing Graphics	299
	Anchoring Graphics	300
	Inserting an Anchored Frame	303
	Importing a Graphic	304
	Shrink-Wrapping an Anchored Frame	311
	Relinking Missing Imported Graphics	313
	Setting Anchored Frame Object Properties	314
	Graphic Formats	317
	Choosing the Best Graphics Format	317
	Image Facets	320
	Cross-Platform Images	320
	Placing Graphics on the Reference Pages	322
	Placing Graphics Above and Below the Paragraph	322
	Changing the Name of a Graphic Frame	324
	Importing Graphics on a Master Page	325
	Graphics in Structured Documents	326
13	FrameMaker's Graphics Tools	327
	Drawing Basic Shapes	328
	Working with Grids	333
	Selecting Objects	335
	Deleting Objects	336
	Modifying Objects	336
	Resizing	341
	Reshaping	344
	Smoothing Corners	345

Changing the Number of Sides	346
Joining Lines	347
Cropping and Masking Graphics	348
Rearranging Objects	350
Aligning	350
Distributing	351
Grouping	353
Running Text Around an Object	354
Layering Objects	355
Changing the Orientation	356
Rotating	356
Flipping Horizontally or Vertically	357
Drawing Objects in Structured Documents	358

PART IV: BUILDING BOOKS

14	Setting Up Book Files	361
	Creating a Book File	362
	What the Book Window Tells You	363
	Managing Files in the Book	364
	Adding Files	365
	Opening, Closing, and Saving All Files	366
	Removing Files	367
	Rearranging Files	367
	Renaming Files	368
	Updating the Book	369
	Troubleshooting Book Updates	371
	Managing Numbering	373
	Printing a Book	384
	Modifying Files from the Book	384
	Spell-Checking and Finding/Changing Items	384
	Choosing Files When Performing Other Book-Level Features	385
	Book Features Available Inside Files	385
	Paging Through Files in a Book	385
	Structured Books	386
15	Creating Tables of Contents	389
	Setting Up the Table of Contents File	390
	The Initial Table of Contents File	393
	Fine-Tuning the Table of Contents	395
	Locating the TOC Reference Flow	395
	Understanding the TOC Flow Entries	397
	Formatting the Table of Contents	400
	Using Character-Level Formatting	400
	Formatting Examples	400
	Structured Tables of Contents	404

16	Creating Indexes	405
	Creating the Index File	407
	Creating Index Entries	408
	Basic Entries	410
	Editing and Deleting Index Entries	411
	Creating Subentries	412
	Stacking Multiple Entries in a Single Index Marker	412
	Creating Ranges	412
	Creating References to Synonyms (“see”)	414
	Changing Sorting Order for a Single Entry	415
	Formatting the Index	416
	Ignoring Characters While Sorting	418
	Modifying Page Separators	418
	Changing the Sort Order	419
	Changing the Group Titles	420
	Formatting the Page Number	420
	Creating Structured Index Markers	424
17	Creating Other Generated Files	425
	Creating Paragraph-Based and Element-Based Lists	428
	List of Figures	428
	List of Tables	429
	List of Paragraphs	430
	Alphabetical List of Paragraphs	430
	Creating Lists of Other Items	430
	List of Markers	430
	Alphabetical List of Markers	431
	List of References	431
	Generated Indexes	434
	Index of Authors	435
	Index of Subjects	435
	Index of Markers	435
	Index of References	436

PART V: CREATING OUTPUT

18	Print and PDF Output	439
	Printing Your Documents	441
	Printing an Individual Document	441
	Printing from the Book File	443
	Specifying Pages	444
	Printing Several Copies	445
	Changing the Paper Size	446
	Printing Double-Sided Documents	446
	Skipping Blank Pages	447
	Printing Thumbnails	447

Printing Spot Color in Black and White	448
Printing Low-Resolution Images	448
Printing Registration Marks	449
Changing the Printer	450
Creating PostScript Files	451
Configuring Your Printer	451
Printing to a PostScript File	455
Printing Color Separations	457
Creating a TrapWise PostScript File	460
Printing Fonts Accurately	462
Creating PDF Files	463
Using the Save As Menu Choice	464
Distilling a PostScript File	465
Preventing PDF Conversion Errors	468
Customizing the PDF File	468
Printing and Converting Structured Documents to PDF Files	476
Hiding Element Boundaries	476
Converting Elements to Bookmarks in a PDF File	477
19 Creating HTML and XML Output	479
Choosing a Conversion Method	480
Saving as HTML or XML	481
Saving a File as HTML or XML	481
Saving a Book as HTML or XML	482
Modifying Conversion Settings Graphically	483
Modifying the Reference Pages	488
Mapping Character Tags	489
Mapping Cross-Reference Formats	490
Modifying Style Sheet Information	491
Modifying Page Opening and Closing Code	492
Converting Structured Documents	494
Converting with WebWorks Publisher Standard Edition	495
Planning	496
Setting Up a Project	497
Generating Output	502
Customizing Your Project	502
Converting Graphics	508
Going Beyond Basic Customization	509
20 Color Output	511
Understanding Types of Color	513
Understanding Process Color	514
Understanding Spot Color	516
Applying Color to Text and Objects	516
Managing Color Definitions	518
Modifying Existing Colors	518
Creating Custom Colors	522

Adding Colors from a Color Library	523
Renaming Colors	526
Viewing Colors	527
Selecting a Color View	528
Setting up Color Views	529
Deleting Colors	529
Color for Online Output	530
Color in Structured Documents	531

PART VI: ADVANCED TECHNIQUES

21	Setting Up Conditional Text	535
	How Conditional Text Works	536
	Some Conditional Text Examples	537
	Applying and Removing Condition Tags	540
	Using the Keyboard Shortcuts	542
	Removing a Condition Tag	542
	Removing All Conditions from Text	542
	Showing and Hiding Conditional Text	543
	Planning Conditional Text	545
	Common Condition Tags	546
	Alternatives to Conditional Text	546
	Creating and Modifying Conditional Tags	547
	Deleting a Condition Tag	548
	Using Conditional Indicators	549
22	Creating Interactive Documents with Hypertext	551
	Setting Up a Basic Hypertext Link	554
	Identifying the Target of a Link	554
	Creating a Link to the Target	555
	Creating the Active Area in Text	556
	Testing Links	557
	Creating Image Maps	557
	Setting Up a Button Matrix	558
	Creating Active Areas on a Graphic	560
	Creating a Link to a Web Address	560
	Creating Pop-Up Alert Messages	561
	Creating Pop-Up Menus	562
	Creating Read-only Hypertext FrameMaker Documents	563
	Hypertext Command Reference	564
23	Writing Equations	569
	Understanding the Equations Palette	570
	Inserting Equations	573
	Using the Equations Palette	574
	Typing an Equation	575
	Selecting Equations and Math Elements	576

Navigating Through Equations	577
Moving Equations	578
Modifying Equations	579
Moving Text Using Keyboard Shortcuts	579
Moving Text Using the Equations Palette	580
Deleting Equations	582
Formatting Equations	582
Changing Equation Fonts	582
Changing Equation Font Sizes	583
Inserting Automatic Line Breaks	584
Changing the Equation Size	585
Applying Character Tags	585
Evaluating Equations	585
Equations in Structured Documents	586
24 Maker Interchange Format	587
Creating a MIF File	592
Opening a MIF File in FrameMaker	592
Viewing a MIF File	593
Cool Stuff You Can Do with MIF	594
Eliminating File Corruption Problems	594
Making a File Available to an Older Version of FrameMaker	594
Creating a Character Tag for a Vertical Baseline Shift	595
Using MIF Fragments to Update Catalog Settings	596
Performing Global Search-and-Replace Operations	596
Writing Your Own Conversion Tools	598
Using MIF in Configuration Management Environments	598
25 Creating Modules with Text Insets	599
A Text Inset Example	601
Working with Text in Insets	604
Alternatives to Text Insets	605
Planning Modular Text	606
Breaking Text Down into Modules	606
File Storage	606
Information Retrieval	606
Controlling Formatting and Structure in Text Insets	607
Creating a Text Inset	608
Managing Text Insets	610
Opening the Source File	612
Converting Text Insets to Text	612
Structured Text Insets	613
26 Templates	615
Why You Should Care About Templates	617
Getting Started with Templates	617

Importing Settings from a Template File	617
Unstructured Documents	618
What's Imported?	619
Structured Documents	620
What Makes a "Good" Template?	621
Understanding Template Interactions	621
Color Definitions	623
Character Tags	623
Graphic Objects	623
Conditional Text Tags	624
Paragraph Tags	624
Table Tags	625
Cross-Reference Formats	626
Variable Definitions	626
Reference Pages	627
Markers	627
Math Definitions	627
Master Pages	628
PDF Settings	628
Tips and Tricks	629
Paragraph Tags	629
Character Tags	630
Table Tags	631
Reference Pages	631
Conditional Text Tags	632
Naming Conventions	632
Capitalization	632
Special Characters	632
Taking Keyboard Shortcuts into Account	632
Format vs. Function Names	633
Separating Out "Housekeeping" Tags	634
Documenting Your Template	634
Using Single-Purpose Templates	635
27 Sharing and Managing Files Using WebDAV	637
Managing Workgroups	638
Editing a Workgroup	641
Deleting a Workgroup	641
Modifying Workgroup Preferences	642
Working with Managed Documents	644
Adding Files to the Server	645
Opening Files	648
Checking Out Files	650
Saving Managed Documents	651
Canceling Check Outs	651

Checking In Files	652
Updating Local Documents	652
Reverting to the Last Saved Document	652
Renaming Files	653
Closing Files	653
Uploading and Downloading Files	654
Adding and Managing Links	655
Importing Files	655
Managing Links	656

PART VII: STRUCTURED FRAMEMAKER

28 Working with Structured Documents	663
Understanding the Structure View	665
Collapsing and Expanding Elements	668
Selecting and Moving Elements	669
Displaying Tags in the Document Window	671
Understanding Attributes	671
Creating New Structured Content	673
Understanding the Element Catalog Symbols	675
Using Keyboard Shortcuts to Insert Elements	677
Positioning the Cursor in the Structure View	677
Locating Missing and Invalid Elements	678
Changing Elements	679
Wrapping Elements	680
Unwrapping Elements	681
Merging Elements	682
Splitting Elements	683
Details About Inserting Different Element Types	684
Paragraphs	684
Text Ranges (Character Tags)	684
Graphics	685
Tables	686
Cross-References	686
Equations	687
Footnotes	688
Marker	688
Variables	688
Controlling What's Displayed in the Element Catalog	689
Validating Structure	690
Working with Attributes	693
Prompting for Attribute Values	694
Changing an Attribute Value	695
Copying Attribute Values	695
Setting Attribute Display Options	696

29	Understanding the Element Definition Document	697
	How Elements Correspond to FrameMaker Features	698
	Opening an EDD or Exporting the EDD from a Structured File	701
	Reading the EDD	701
	Analyzing Document Structure	703
	Creating a New EDD	706
	Creating New Elements in the EDD	707
	Creating Container Elements	709
	Cross-Reference Elements	711
	Equation Elements	712
	Footnote Elements	713
	Graphic Elements	715
	Marker Elements	716
	Rubi and RubiGroup Elements	717
	System Variable Elements	717
	Table Elements	718
	Defining Attributes (AttributeList)	722
	Creating an Attribute Definition	723
	Setting Up a Choice Attribute	724
	Setting Up Elements with Automatic Insertion of Children (AutoInsertion)	725
	Writing General Rules (GeneralRule)	726
	Including and Excluding Elements (Inclusion, Exclusion)	730
	Adding Formatting Information to the EDD	732
	Formatting Choices	733
	Associating Paragraph Tags with Elements	734
	Associating Character Tags with Elements	734
	Using Format Change Lists	735
	Using Formatting Overrides in the EDD	737
	Setting Minimum and Maximum Values for Formatting Properties ..	739
	Inserting Prefixes and Suffixes for Elements (PrefixRules, SuffixRules) ..	740
	Using Attributes in Prefixes and Suffixes	741
	Controlling Formatting with Element Context	742
	Counting Ancestor Elements (LevelRules)	743
	Formatting First and Last Paragraphs	745
	Writing Context Rules	746
	Setting and Using Context Labels	752
	Testing the EDD	753
30	Adding Structure to Unstructured Documents	757
	Generating a Conversion Table	758
	Understanding the Conversion Table	758
	Creating Conversion Rules	761
	Converting Character Tags	761
	Converting Markers	762
	Converting Footnotes	762
	Converting Anchored Frames	762
	Converting Cross-References	763

Converting Tables	763
Converting Paragraph Tags	765
Creating Hierarchy with Parent Elements	766
Identifying Formatting Overrides	768
Promoting Elements	769
Assigning Attribute Values	771
Applying a Structure Rules Table to One Document	771
Batch Processing Documents	772
Some Closing Notes on Naming Conventions	773
31 Importing and Exporting XML/SGML Markup Files	775
How Import and Export Work	777
Understanding the Application File	779
Setting Up a New Structured Application	780
Creating a New Application Definition	781
Specifying Application Settings	782
Creating EDDs and DTDs	784
Creating Read/Write Rules	786
Setting the Structured Application	787
Exporting to XML/SGML Markup Files	788
Exporting the Current File	788
Exporting a Batch of Files	788
Opening XML/SGML Markup Files	789
Opening a Single XML/SGML File	789
Converting a Directory of XML/SGML Files to FrameMaker Format	789
Using Namespaces	790
 PART VIII: APPENDIXES	
A Resources	795
FrameMaker-Related Web Sites	796
Other Helpful Web Sites	796
Mailing Lists	797
Plug-Ins, Add-On Software, and Third-Party Tools	797
Online Manuals	799
B Managing Fonts Across Platforms	801
Installing Fonts	803
Managing Your Fonts	804
Mapping Fonts in Windows	804
Mapping Fonts in UNIX	809
Mapping Fonts in Mac OS	812
C Building Blocks	813
Index	821
