## **Chapter 1: Introduction to FrameMaker 1**

- Status bar 2
- Catalog and toolbox buttons 4
- Context menus 5
- Applying paragraph styles 6
  - Using the paragraph catalog 7
  - Using keyboard shortcuts 7
  - Using the formatting bar 8
- Applying character styles 9
  - Using the character catalog 9
  - Using keyboard shortcuts 10
  - Removing character styles 11
- Building template components 11
  - Building a new character style 11
  - Building a new paragraph style 13
- Preferences 15
  - Automatic backup on save 16
  - Autosave 16
  - Save FrameImage with imported graphics 17
  - Network file locking 17
  - Remember missing font names 17

Document setup 18  
    Smart quotes 18  
    Smart spaces 18  
    Pagination and numbering 18  
Hyphenation 20

**Chapter 2: FrameMaker file basics 23**

File structure in FrameMaker 23  
    Body pages 23  
    Master pages 23  
    Reference pages 24  
    Text flows 24  
Setting up a new document 26  
    From the File menu 26  
    From an existing file 27  
    Applying templates 28  
    Changing master pages 30  
Naming documents 31  
    FrameMaker files 31  
    Graphic files and folders 31

**Chapter 3: Cross-references 33**

Quick reference 34  
Inserting cross-references 35  
Updating cross-references 37  
Resolving cross-references 39  
Cross-reference building blocks 40

**Chapter 4: Tables 43**

Quick reference 43  
Inserting a new table 45  
    Controlling where a table starts 46  
    Creating a table without a table title 47

- Creating a table from text in the file 47
- Working with table cells 48
- Straddling cells 49
- Sorting a table 50
  - Using the Quick Access Bar table tools 51

## **Chapter 5: Text management tools 53**

- Find/Change 53
  - Finding and changing text or other items 53
- Spelling Checker 57
  - Using the Spelling Checker 57
  - Spelling Options 58
  - Dictionaries 58
- Thesaurus 59
  - Using the Thesaurus 59
- Keeping track of changes 61
  - Change Bars 61
    - Using automatic change bars 61
    - How to remove all change bars 62
- FrameMaker utilities 62
  - Word Count 62
    - Using Word Count 63
  - Comparing Documents 64
  - Comparing books 66

## **Chapter 6: Graphics and anchored frames 67**

- Drawing tools 67
- Color definitions 75
- Color views 78
- Graphics in named graphic frames 79

Anchored frames 81  
    Defining an anchored frame 81  
    Importing a graphic object 83  
    Examples of anchored frame positions 85  
    How to shrink-wrap an anchored frame 86  
How templates handle graphic frames 87

**Chapter 7: Variables 89**

System variables 89  
User variables 90  
Quick reference 91  
Creating a new user variable definition 92  
Modifying a user variable definition 94  
Deleting a user variable definition 94  
Modifying system variable definitions 95  
    Page Count 95  
    Current Date (Long) and Current Date (Short) 96  
    Modification Date (Long) and Modification Date (Short) 98  
    Creation Date (Long) and Creation Date (Short) 98  
    Filename (Long) and Filename (Short) 99  
    Table Continuation 99  
    Table Sheet 100  
    System variable examples 100  
Using system variables on master pages 101  
    Page number 101  
    Running headers and footers 101  
Displaying text from a marker 102  
Displaying conditional tags 103  
Updating system variables 104

**Chapter 8: Conditional text 105**

- Planning your conditional text 106
- Quick reference 107
- Creating conditional tags 109
- Applying conditional text to tables 111
- Applying conditional text to graphics 111
- Deleting a condition tag 111
- Using conditional indicators 113

**Chapter 9: Book files 115**

- Book window and menus 115
- Adding files 116
- Setting numbering for document files 118
- Adding a table of contents 119
- Adding an index 120
- Updating books 121
  - Locating empty paragraphs 123

**Chapter 10: Indexing 125**

- Inserting index markers 125
- Indexing syntax 126
  - Semicolon (;) 127
  - Colon (:) 127
  - <\$npage > 128
  - <\$singlepage > 128
  - <\$startrange >, <\$endrange > 129
  - <\$autorange > 130
  - Square brackets ([ ]) 131
- Typing special characters in index markers 131
- Using character tags in index markers 132
- Creating references in the index 133

**Chapter 11: Generating PDF and HTML files 135**

- Generating PDF files 135
  - Using the Save As menu choice 135
  - Printing to PostScript and distilling 138
  - Distilling the PostScript file 141
  - Printing to PDFWriter 142
- Generating HTML 143
  - Saving files as HTML 143
  - Advanced HTML conversion 148

**Chapter 12: WebWorks Publisher Standard Edition 151**

- Understanding WebWorks Publisher Standard Edition 153
- Planning 153
- Creating a Portable HTML project 154
- Customizing the conversion 161
- Paragraph styles in the Portable HTML template 164
- Generating output 166
- Speeding up processing 166
- Delivering a project 167

**Appendix A: FrameMaker keyboard shortcuts 169**

**Appendix B: Online resources 175**

- Web sites 175
- Mailing lists 177
- Newsgroups 178
